Summary

I am a PhD candidate in statistics at UCLouvain in Belgium, within the Institute of Statistics, Biostatistics and Actuarial Sciences. My research interests focus on bio-statistical methods applied to cancer patients. In parallel with my doctoral thesis, I am teaching several courses in statistics and probability at bachelor and master's level, at UCLouvain as teaching assistant and at UNamur as invited lecturer. I also provide trainings and consulting in data science, statistics and R programming for UCLouvain's technology platform for Statistical Methodology and Computing Service (SMCS).
